COMMERCIAL INTELLIGENCE

THURSDAY EVENING, NOVEMBER 3.

THE rates of discount in the London Money maket remain unaltered, but the movements in Securities appear to indicate increasing ease, Consols being quoted ⅛ higher at 99⅛, French Rentes ⅜ higher at 117⅜, Enfaced Rupee Paper ⅛ dearer for Fours at 84⅝, and ⅛ in Fours-and-a-half at 91⅛. The 3½ per cent. Indian Sterling Loan is an exception, being quoted ⅛ lower at 100⅜.

Reuter's weekly quotations make Metals unaltered. In the General Produce markets Coffee and Cocoanut oil are unchanged. Wheat is reported steadier, Seeds unmoved.

"Piece-goods in Manchester are steady with a moderate inquiry, but the firmness of producers curtails business." This is a pretty fair description of the positionas reported from private sources, a considerable proportion of the offers which have gone from this side lately having failed to go through, owing to Manchester figures being above our level.

The Liverpool Cotton market is still apparently unaffected by the comparatively moderate receipts at the American ports, the tone of yesterday's market being given as dull, sales 10,000 bales. Spot prices remain without change, but Americans for future delivery come 1-32d. lower. In New York ready Mid-Uplands are unaltered at 11⅛ cents, February shipment one point lower at 11·98 cents per lb. The receipts at the U. S. ports to date give the following comparisons with the two previous seasons :—

	1881.	1880.	1879.
Wednesday's Receipts	28,000	36,000	31,000
Five days' do.	140,000	155,000	146,000
Total since 1st Sept....	1,351,000	1,535,000	1,387,000

The result of the biddings for Council drafts in London yesterday was pretty much what was generally anticipated on this side. Government having affixed a minimum of 1s. 7 15-16d., only 30 lakhs were taken up. The demand for remittance, however, is nevertheless fair, as in addition to Councils there are shipments of 3 lakhs in Silver and 4 lakhs in Gold for this port. Silver comes 1-16d. lower, and our correspondent says is weak at that, but we do not hear that supplies are excessive.

EXCHANGE to-day has been quiet at practically unchanged quotations, and the amount of business done has been small. We quote :—

Bank Bills on demand	1s. 7 15-16 to 31-32d. per Rs.
Do. telegraphic	1s. 7 29-32d. "
Do. 4 months'sight....	1s. 8 5-32d. "
Credits, 3 " "	1s. 8 ¼d. "
Documents, 3 " "	1s. 8 9-32d. "
Francs 3 " "	2f. 14⅛c. "

On Calcutta rates are unaltered.

GOVERNMENT PAPER opened very firm owing to the rise reported in London, and for a time Fours were quoted at Rs. 101½ to ⅝. The Calcutta market, however, having failed to respond to the improvement, the tone at the close was weaker, say, Fours Rs. 101⅜, Fours-and-a-half Rs. 109¾—sellers, no buyers.

SHARES are steadier, although not more active. Bank of Bombay's are ½ per cent. higher at Rs.731½. Colaba Land are Rs. 7½ higher at Rs. 830. Spinning and Weaving Companies are firm, and in some instances Rs. 5 higher. Bombay Saw Mills are Rs. 10 better at Rs. 420.

COTTON has been extremely quiet to-day, with nothing or next to nothing doing for export. Rates are easier so far as regards buyers, but sellers are slow to make any reduction. We quote :—

Good Omra. March	delivery. Rs.	203 per candy.
F. G. F. do.	do.	195 "
G. F. do.	do.	186 "
Good Broach do.	do.	226 "
Do. Bhownugar April	do.	204 "

SEEDS and WHEAT are quiet at unchanged prices. Of the latter supplies are still large.

FREIGHTS have been a trifle steadier again, although not particularly active. For Liverpool ready shipment has recovered to 42s. 6d., and for December shipment to 40s. Anything like a scarcity of tonnage, however, is rapidly disappearing.

PIECE-GOODS are slightly better than they were, and from the bazaar clearances are on a somewhat larger scale. Prices, however, do not improve, and unless shipments from home decrease have little room for so doing.

COALS continue firm for future delivery, but on the bunder stocks are still heavy and the market dull.

The Bombay Gazette

FRIDAY, NOVEMBER 4, 1881.

THE troubles in Ireland show little sign of abatement; rather the contrary. For the first time we hear of an attempt to resist the levy of the public imposts. At Belmullet the people attempted to prevent the police from collecting the poor-rates; and in the collision which ensued the police fired, and several persons were killed and wounded. No attempt to resist the levy of rates or taxes has ever, we believe, been made before. The levy of tithes was passively resisted some forty years ago, and constant bloody conflicts took place between the countrymen and the police in the course of the struggle. In the last year or two the collection of rents has been frequently resisted, but, as we have said, the present is the first occasion upon which the collection of the ordinary impost has led to rioting and loss of life. If to the cry of "no rent" that of "no taxes" be added, the complication will be so great, that it is difficult to see any way out of it short of proclaiming martial law and ruling by the drumhead. To use Mr. Gladstone's expression, the resources of civilisation will doubtless eventually prove adequate; but it must be confessed that the prospect is not at all brighter just now than it was before either the Land Act or the Coercion Act was passed. The Gladstone administration, it is evident, made a great mistake in trying to ride two horses at once. By the Coercion Act they destroyed their moral influence with the popular party in Ireland, while the Land Act alienated and disgusted the Conservative and property classes, which regarded it as a measure of spoliation. The net result is that, as Mr. Gladstone avowed at Leeds, the Government has no moral authority at its back in Ireland. It is obliged to rule wholly by external force—a force quite adequate to break in pieces any overt resistance, but a very doubtful weapon when pitted against the passive resistance of the great majority of the community. No one will doubt that had the Conservatives remained in power they might have found "the good old rule, the simple plan" sufficient to keep down the tenant-farmers and their abettors, while they would have had the enthusiastic support of the great body of the landlords and their friends. Had the Liberal Government carried out its own policy in its integrity, and by forcing the Compensation for Disturbance Bill upon the House of Lords as it subsequently forced the Land Bill upon that body, the Land League would never have become the power that it did actually become, and the Coercion Bill would not have put the people out of sympathy with the Government which drew up the Land Act with the express purpose of satisfying them as far as English people would allow. The olla podrida of Conservative and Liberal nostrums has disagreed with the digestion of the patient, and it seems as if nothing but copious blood-letting can now reduce the resulting fever.

IF the fair trade movement does no other good, it seems at least likely to raise a question that has been from time to time, and always inadequately, discussed in and out of England, that is, the possibility of having the dependencies—Crown colonies and Constitutional colonies—of the Empire represented in London. There is no doubt that there is a great want of unity in the Empire. Large parts of it legislate for themselves without the slightest reference to the wants or wishes of the other parts. Canada thinks nothing of Australia, and New Zealand cares very little for Cape Colony, when undertaking fiscal or other legislation. The bond which unites them is, with all loyalty be it spoken, but a sentiment; and the devotion to the crown is to some extent a personal feeling which might not survive another George the Fourth for example. The absolute weakness of the Union, its dependence upon a chapter of accidents, its illogical character, have all attracted attention at intervals in the past, but no practical suggestion has been put forward worthy of a moment's consideration. The Royal Colonial Institute has done very good work in informing the public at home about the colonies and their wants; but what do the colonies know about each other? No more, indeed, than the school geographies teach, and that is not much. The control of the Colonial Office in Downing-street is a sham as regards two-thirds of the colonies, and the authority even of the direct representatives of the Crown is in some of the colonies but a *nominis umbra*, and any attempt now to enforce it would almost certainly result, in two or three cases at least, in a repetition of the Boston harbour scene which set the ball rolling in America. More and more, too, are the colonies with representative institutions taking up their own defence, and soon they will feel themselves strong enough to dispense with the assistance of even the small depôts of Royal Artillery which remain with them, and to do without the presence of those cruisers that now spend no small part of the taxes of England in carrying the white ensign from colonial harbour to colonial harbour.

Under the circumstances it has occurred to many men entirely unconnected with the fair trade movement that some sort of representative body might be formed in London for the purpose of advising the Colonial Office and the home Government generally as to the wants of the colonies, and for the additional purpose of endeavouring to bring the colonies nearer to one another as well as to the mother country. How this is to be done it is not easy to see; for a number of gentlemen sitting round a table or in a council-chamber in London would hardly be able to bind their respective colonies, while unless they were in a position to offer each other special privileges in the way of a remission of customs' duties, they would be no nearer a real union after months of discussion than they are at present. And unless Great Britain sees her way to imposing what Mr. Eckroyd, M.P., writing in the October number of the *Nineteenth Century*, terms a small differential duty against foreign countries and in favour of her colonies and dependencies, the trade between colony and colony alone would not be large enough to justify special privileges. But India could not be left out in the cold. Her population, her revenues, her products, natural and manufactured, and her position, all render it impossible to leave her out in any scheme of confederation. On the other hand, on what principle could India be admitted to a Central Council? If she had a number of seats allotted to her on any principle of population, or of revenue, or of imports and exports, or of area, she would swamp the colonial vote altogether. Then there would be no use for the India Office. Again, who can say how the representatives should be chosen? If by the Government of India or the Presidencies they would be simply official nominees; if by the European population we should soon have a clashing of authority; if by the Chambers of Commerce vast industries and interests would be virtually unrepresented. And the idea of having the representatives chosen by the natives of India is one that cannot be entertained to-day, and must be postponed, it may be for years or it may be for ever. Yet with all the difficulties that present themselves, difficulties which seem insurmountable, we are convinced something will have to be done to bring the various parts of the Empire into closer relations on some representative plan, if the whole fabric is not to collapse before many years. The growth of business before Parliament will compel some redistribution of its working arrangement. Mr. Gladstone, in his Guildhall speech, seems to foreshadow an attempt to extend not merely to Ireland, but to England and Scotland, a system of such home-rule as would enable localities to deal with their own petty affairs, which now swamp St. Stephen's and block business of real importance. In the Green Isle the cry for home-rule at present would be satisfied with this local sort of self-government, which is not by any means inconsistent with the most perfect loyalty to the Crown, and which, within proper bounds, would be a great relief to the general work of the Empire. Why should local roads, railways, or other public works, police arrangements, *et hoc genus omne* of petty details come before Parliament at all? Some of the more moderate Home-Rulers are, we hear, feeling their way to an alliance with the as yet small party in England which is going in for a federal union of the Empire, either as a part of the fair trade plan or as a thing desirable in itself. Mr. Parnell could not object to throw in his lot with even the most extreme protectionists, for he has just been preaching protection of the most outrageous sort in Ireland, to the no small disgust of many English Radicals who are not indisposed to go some way with him. What will come of it all we shall see by and bye.

Meanwhile the claim of the people of India to some share in their own Government is being pushed in a grotesque fashion by a native of India who happens to be in England. One of our correspondents in London sent us the address of H. H. Rampal Singh, Rajah of Rampoor, who presented himself for a day to the electors of North Lincolnshire, and then suddenly retired in favour of that miracle of discretion and judgment, Mr. James Lowther. His Highness has by no means given up his notion of sitting in St. Stephen's. He points out that, although not through the operation of universal suffrage, the French dependency in Cochin China, like the French colony of Algeria, sends representatives to the Chamber in Paris; and he urges that if India cannot be allowed to send representatives to Westminster, some English constituency might send an Indian to the mother of parliaments. We are fain to doubt this constituency will be found, but even if it were, this would no more be a representation of India than Mr. Childers's seat for Pontefract is a representation of Australia. There is, however, one way in which, if the Crown and its advisers had the courage which we are

THE VICEROY'S TOUR.

(FROM OUR OWN CORRESPONDENT.)

DELHI, Nov. 3.

The Viceregal party arrived here by special train this morning at eight o'clock. They were received at the railway station, which was decorated in honour of the occasion with flags and evergreens, by the Commissioner, Colonel Gordon Young, Colonel Hunter, the officer commanding the troops at the station, a number of civil and military officers, and all the principal native noblemen of Delhi, amongst them being the boy Nawab of Patadi. The assembly on the platform was small, though outside the natives thronged the roads and the entrance, at which a triumphal arch was erected. The Viceroy and Lady Ripon, escorted by the Viceroy's body-guard, drove in two Ludlow Castle, the residence of the Commissioner, the Viceregal salute being fired as they left. The 54th Foot, with band and colour, formed a guard of honour at the railway station.

A levée is to be held this evening after dinner. To-morrow the Commissioner gives a garden-party at Kudsia Bagh; and the famous Kootub Minar, about 11 miles distant, will be visited on Saturday.

Arrangements are, it is said, being made by the Maharaja Sindia for a grand banquet at the Taj, at Agra, on which occasion the magnificent building will be illuminated.

LATER.

Their Excellencies drove round the city this afternoon.

The levée at 10 o'clock was numerously attended. The troops here are four companies of the 54th Foot, a detachment of the 1st Bengal Cavalry, the 15th Sikhs, and a battery of Royal Artillery. The 54th Sikhs furnish the guard of honour at Ludlow Castle.

RIOTS IN IRELAND.

SEVERAL PERSONS SHOT.

Riots still continue to take place in Ireland. A serious affray has taken place at Belmullet between the police and the people, owing to the latter opposing the collection of the poor-rates. The police were eventually compelled to fire on the mob, killing and wounding several of them.

THE Bombay Cavalry have of late not been lucky, but it is supposed they will shortly enjoy a little promotion, as it is rumoured Colonel Blair, V. C., the Commandant of the 1st Regiment, is about to retire or take furlough. He is a distinguished officer of nearly 38 years' service. There has long been a block in the promotion, one regiment having no less than three colonels and one major on its list; and the second-in-command being an officer of about 27 years' service. Slow promotion is or was a common complaint in the cavalry. Some regiments have suffered much in this respect, so a vacant command will be very welcome.

THE Bombay Presidency district season reports for the week ended the 26th October show that rain was still urgently required in Belgaum and parts of Ahmednagar. Cholera was decreasing in Ahmednagar and Satara. Fever and cattle-disease continued in a few districts. Prices generally steady.

THERE were only two deaths from cholera in Bombay last week, as compared to an average of four for the corresponding weeks of the last five years. Satara and Ahmednagar appear to be the only districts where the disease is now very prevalent. In the former collectorate there were during the last week reported on 124 cases and 78 deaths, and in Ahmednagar district there were 34 cases and 20 deaths. Fifteen deaths are reported to have occurred in the Belgaum collectorate, and 7 in Kaladgi. Cholera has now disappeared from Sholapur, and is abating in Nasick and Rajkot (Gondal). In Khandesh the public health is now described as good; and no cholera cases are reported from Surat.

THE Honourable C. Gonne, Chief Secretary to Government in the Political, Secret, Educational, and Judicial Departments, has been allowed special leave on urgent private affairs for six months from such date in the present month as he may avail himself thereof, as also subsidiary leave for ten days previous to his departure from Bombay. During Mr. Gonne's absence Mr. J. B. Peile, C.S.I., will act as Chief Secretary to Government in the Political, Secret, Educational, Judicial, and Separate Departments, and Mr. J. Nugent, C. S., will take Mr. Peile's place as Secretary to Government in the Revenue, Financial, and General Departments.

THE following promotion is made in the Bombay Volunteer Rifle Corps:—Serjeant Brady Nicholson to be Lieutenant, *vice* Brebner, resigned.

THE s. s. Rome dropped down opposite the Apollo-bunder yesterday, and was visited in the evening by several hundred ladies and gentlemen, who roamed about her fine promenade deck and splendid saloon, and generally inspected and admired her beautiful fittings and grand accomodation. Even ladies who have suffered agonies of sea sickness in smaller and less comfortably fitted steamers declare they would not object to a voyage in the Rome.

WE recently drew attention to the growing evil of native journals, especially the mofussil papers, discussing in public matters of a purely private and domestic nature. We are glad to see that the remarks we made have not been without good effect, but we are also persuaded that there is yet much room for improvement. The following paragraph, which appears in a Guzerati sheet called the *Broach Samachar*, is only one of numerous similar items that appear from time to time in that and other mofussil papers. The paragraph says:—"Anonymous threatening letters are delivered by the post at the house of the man Mumdoo, who married the *Rawalian* named Jamna under the pretext that she was a Mahomedan." We cannot imagine what particular good this paragraph was expected to effect; but it is clear that under the disguise of an unmeaning item of news, the small bit has a terrible meaning for the persons named therein.

"THERE is many a slip between the cup and the lip," as Mr. Anundjee Morarjee found to his cost yesterday. He came to Bombay a few days ago from Mangrole in search of a wife, and he was lucky enough to find in Bai Amrut (*i. e.*, Lady Nectar), thirteen years of age, the girl of his choice. Arrangements were duly made for the solemnization yesterday of a marriage between him and the "Lady Nectar." However, before the time for the marriage ceremony arrived he received an injunction order from the Bombay High Court restraining him from accepting the girl either in betrothal or marriage. He was then made aware, if he did not know it before, that the girl had been betrothed in April, 1881, to Kessowjee Ooka, a casteman, who had paid Rs. 1,000 as her dowry, and who, on hearing that a clandestine marriage was to take place, filed a suit in the High Court and obtained the injunction order from Mr. Justice West on Wednesday afternoon last. Mr. Anundjee Morarjee doubtless considers his case to be a hard one, for by a cruel irony of fate his visit to Bombay, instead of enabling him to carry home a bride, has involuntarily launched him into an expensive law suit, which will not be decided until after the vacation.

PREPARATIONS are being made for festivities at Aurangabad in connection with the Nizam's promised visit to the station next month. A correspondent informs us that a building which was formerly used as a church is being fitted up for a theatre, and some good performances are expected, as "Aurangabad is not wanting in histrionic talent." Mr. Jones, the officiating Resident, and Sir C. Gough, Commandant of the Hyderabad Contingent, will meet His Highness the Nizam and Sir Salar Jung at Aurangabad.

MANY of his personal friends, as well as others, will be glad to learn that General Anderson, better known in Bombay and Kathiawar as Colonel W. W. Anderson, late Political Agent of the last-named province, arrived here by the mail-steamer Rome in connection with mining operations in Madras. The gallant officer has identified himself with some of the mining estates in the Wynaad, whither he proceeds shortly.

THE order prohibiting teachers in Government schools and colleges from taking private pupils meets with disapproval from many of the vernacular journals. They consider it as an unnecessary prohibition which will have the effect of materially decreasing the emoluments of competent men in the teaching line, and so obliging them to take to other occupations of a more remunerative nature. These papers believe that in more ways than one the cause of public education will suffer by this ill-considered order, unless Government are prepared to increase the salaries of teachers to a considerable extent.

CAPTAIN (BREVET MAJOR) J. DAVIDSON, Squadron Commander, 3rd Punjab Cavalry, at present employed as an Assistant Secretary in the Military Department, has been appointed Deputy Assistant Adjutant-General, Army Head-Quarters, *vice* Major Shakespear, and will take up the duties of his new appointment on 1st December next.

IT is reported to have been ruled that in future all officers of Government not being military officers subject to military rules, in the Military, Public Works, Marine, Ordnance, and Commissariat Departments will be required to appear before military boards when applying for leave on medical certificate, or retiring on pension under circumstances requiring a medical certificate. The local head of the department to which the applicant belongs will have to apply to the general officer commanding the division or district for the assembly of a board to report on the case.

SOME dissatisfaction must, the *Statesman* thinks, be felt with the decision come to by the Viceroy regarding the rates of freight between the wheat districts of Upper India and the two principal ports, Bombay and Calcutta. The question arose from a reference to the Government on the equalisation of rates from Delhi and Agra to Bombay by the Rajputana line on the one hand, and by the Allahabad-Jubbulpore route on the other. This naturally raised the point as to the Calcutta outlet, as the grain, once at Allahabad, was 278 miles nearer Calcutta than Bombay, the relative distances being 564 and 842 miles. Now to look for a moment at the relative distances for the Bombay traffic. From Delhi to Bombay by the old route and by the Rajputana line, the respective distances are 1,232 and 969 miles, while from Agra to Bombay they are 1,120 and 927 miles respectively. We fail to see why the assimilation of rates on the Bombay-Rajputana section is considered wrong, and the same assimilation thought worthy of adoption as between the through routes—Allahabad-Bombay and Allahabad-Calcutta. Bombay has many advantages over Calcutta, the principal of which are its being so much nearer the United Kingdom, and its generally lower rates of freight. Calcutta, on the other hand, has the advantage of being 278 miles nearer the wheat districts, keeping the Rajputana line out of the calculation. Calcutta, then, will have this advantage neutralised by the assimilation of rates. We keep the Rajputana route out of the calculation for the present, because it will never offer serious competition to Calcutta so long as the Jeypore narrow gauge exists with its consequent double breaking of bulk. Perhaps the greatest advantage enjoyed by the East India line over the Great Indian Peninsula line lay in the greater liberality of its management; but that will be of no value under the proposed equalisation. We think His Excellency should have left each railway to make its own arrangements as to securing freight, subject of course to a check on anything like reckless trading.

THE *Hindu Patriot* is sorry to observe that the Calcutta missionaries are taking the aggressive in the dissemination of the Gospel. Apparently some one of them has posted a placard in the native town denouncing idolatry. It is headed—"Abominable idolatries." Then follow some verses from the Bible condemnatory of idolatry, and the placard ends thus—"Inhabitants of Bengal, awake from the sleep of superstition, and save yourselves and your country from the abominations of idolatry." The placard bears no signature. A translation is given, which is missionary Bengali. It is calculated, the *Patriot* remarks, to offend much the religious feeling of the masses, who do not understand English, and who cannot therefore be expected to appreciate the teaching in the text, but who may not unnaturally regard the ridicule cast upon their gods and goddesses as stocks and stones to be a wanton insult to their religion. But it is the manner of the publication to which we object. If Christian missionaries are allowed to placard their anathemas of idolatry in this fashion, the Hindus and Mahomedans may follow their example and denounce Christianity in their own way. Surely this sort of "placarding" religious animosities is not calculated to foster mutual good feeling and harmony. Besides, we doubt whether the Commissioner of police should allow placards of this kind, without any signature, to be posted in the town without his permission.

JAPAN was visited by a typhoon on the 13th and 14th September, which did an immense amount of harm along the coast. The British barque Wellington, from Newcastle, N. S. W., was driven ashore near Misaki, and became a total wreck.

MDLLE. DELLA-ROCCA has visited the harem of the Khedive at Naples. The ladies are very happy in their exile, and pass a good deal of their time in looking at the pictures of illustrated journals from every part of the world, eating bonbons, and dressing. The sugarplums and toilettes come from Paris, but not the new wives; these are supplied by the Khedive's son—true act of filial love. When a new princess arrives, the other ladies view her as an enemy, an intruder, but when wed they accept her as a sister.

THE Duke of Beaufort had rather a narrow escape from a cracked skull in the recent stone-throwing riot and *mêlée* in the hunting field in the Marquis of Waterford's country in Ireland. The huntsmen there congregated have now, it is expected, decided to discontinue hunting in that particular part of Ireland, for the present season at least.

THE lovely mansion of the Duke of Westminster, known as Cliveden, near Maidenhead, it is reported, has been purchased by Mr. Levi, proprietor of the *Daily Telegraph*, for £200,000. Seeing that the improvements and alterations now making in Fleet-street for the above-named journal will cost many thousands, it appears that publishing penny newspapers is not such a bad thing after all.

IN a cellar of the Julius Tower at Spandau, the grim prison-fortress associated with so many thrilling episodes in Prussian political history, lies a mighty treasure of coined gold, equivalent in value to six millions of pounds sterling, laid aside from Germany's gains by the 1870-71 war as a provision of hard cash wherewith to defray the mobilisation and other preliminary expenses of the next campaign undertaken by the Empire. This enormous reserve fund is absolutely unproductive, and may be said to have cost the German nation half its total amount in foregone interest since it was first lodged in its subterranean repository.

A LONDON paper says:—Colonel Marter, Aide-de-camp to the Queen, the capturer of Cetewayo, is, it is stated, about to be appointed to the command of the King's Dragoon Guards, in India, for five years, and will take up his duties in December.

FOR forty-two days the four surgeons attendant on President Garfield—Bliss, Barnes, Woodward, and Reyburn—charged the Government 4,200 dols., or 100 dols. each, per day. Dr. Agnew's bill for the same number of days, for "consultations, operations, and visits," was 32,600 dols., and Dr. Hamilton, for "visits and consultations," rendered a bill for a similar amount. The total charges for the medical men's services amounted to 87,000 dols. (£17,520.)

WHEN the mail left, France was suffering from an epidemic of strikes. In Paris the carpenters, sawyers, pianoforte-makers, brass-instrument-makers, turners, coopers, book-binders, gilders, and lace-makers "turned out" for higher wages. Strikes were also threatened in the building trades, and among the cabinet-makers and packing-case-makers. In the provinces the movement for higher wages was spreading. At Tours the lace-makers were on strike; the cabinet-makers and varnishers had struck at Rouen; the stone-cutters and masons at Béziers; the rope-makers and washerwomen at Marseilles; the boat-builders and carpenters at Condé; and many other trades elsewhere.

The body of the deceased was found floating in the sea on Wednesday, the 2nd instant, abreast of the Sassoon Dock. Mr. Grant Duff, on alighting at Kirkee, was introduced by Sir James Fergusson to several of the military and civil officers who were present on the platform. A guard of honour, which consisted of 100 rank and file of H. M.'s 16th Regiment N. I., with band and colours, under the command of a European officer, presented arms, and the band played the National Anthem. The distinguished party, after a few minutes' stay on the platform, proceeded to the carriages waiting to convey them to Gunesh Khind.—*Deccan Herald.*

EDUCATION OF POOR EUROPEAN AND EURASIAN CHILDREN.—The new educational scheme for the proper education of European and Eurasian children supplies, the *Bombay Samachar* grants, what has long been badly felt as a want. Even if it were necessary to specially tax the resources of the country for holding out to the children in question inducements to learn, the *Samachar* would view any measure to that effect with approval. But a very great drawback to the scheme is the provision made to dissociate European and Eurasian from native children throughout the country, thinks the *Samachar*. The one great impediment in the way of British rule being appreciated at its true worth is the absence of social and friendly intercourse between the rulers and the ruled; and the writer considers that the new scheme strikes at the root of any hope that may have been entertained hitherto that that intercourse would in some way be established.

RIFLE SHOOTING.

BRIGADIER-GENERAL A. LYTTLETON ANNESLEY, Adjutant-General of the Bombay Army, has presented a silver cup to be shot for, in connection with the Northern India Rifle Association Army matches, by "sections of four mounted men (non-commissioned officer or privates) from any troop of a British cavalry regiment, or Horse Artillery battery serving in India. The N. I. R. A. add money prizes to the extent of Rs. 250, divided into four prizes. The cup is to be shot for between 1st December and 15th March 1881-82, and again in 1882-83. The winning regiment or battery in 1881-82 will retain the cup in the Sergeants' Mess until the final competition the following year, when it will become the property of the regiment or battery making the best aggregate in the two years. The money prizes—which will be divided amongst the men of the section—are offered for the 1881-82 competition; and the amount to be given the following year may be more or less, according to the number of entries in the first year's competition. The conditions require that the competing sections should ride from the 1,000 yards firing point to 400 yards, taking two flights of hurdles in the course, and fire five rounds dismounted at that distance; ride to 500 yards and fire five rounds there; and then ride to the winning post (over the hurdle placed 700 yards from the target) to be fired at 500 yards from the target. The hurdles are to be 3 feet high, of stout timber, or a mud wall. Thirteen minutes will be allowed for completing the course.

The British Infantry Volley match (open to all British Infantry Regiments and Volunteers serving in India), for which a silver cup has been presented by Major-General Sir Herbert Macpherson, with money prizes to the amount of Rs. 511, will be shot between the 1st November 1881 and the 28th March 1882. The distances are 400, 600, and 500 yards (to be fired in the order given), five volleys at each distance; time allowed nine minutes.

The Volunteers' contest, with twenty prizes ranging from the N. I. R. A. Silver medal and Rs. 100 to Rs. 5, is open to all Volunteers in India and Burmah, and may be shot any time between the 1st November 1881 and the 28th February 1882. The distances are 300 and 500 yards, ten shots at each, in any position. The entrance fee is two rupees, and "a Volunteer may enter and shoot as often as he pleases, by paying a fresh entry for each time, but can only take one prize."

In addition to the above, there is an Army match for European soldiers only at 300 and 500 yards; also a Native Cavalry competition and a Native Army Volley match with similar conditions to those for the "Annesley Cup in the one case and for the British Infantry Volley match in the other.

AGRA VOLUNTEER RIFLE CORPS.

IN the Agra Volunteer Corps a member who fails to qualify for the capitation grant is not only excluded from participation in the annual rifle matches of the corps, but forfeits the privilege of retaining his rifle and accoutrements in his own possession, and is further required either to pay Rs. 20 to the funds of the corps—the amount lost by his neglect of his duties—or resign; and the special attention of every Agra Volunteer is called to the following paras from Act XX. of 1869:—

"The Commanding Officer may convene a regimental Court Martial for the trial of any member who, without reasonable excuse, shall neglect to attend Parade, or Drill, or Target Practice, at the appointed times; or who shall be guilty of any neglect of duty, or minor military offence; and on conviction, the delinquent may be sentenced to pay a fine of Rs. 50."

"If any member neglect, or refuse, to pay any fine to which he has been sentenced by any Court Martial, within such time as may be fixed by the Commanding Officer, the magistrate of the district in which the fine was imposed, can upon being furnished with a duly verified copy of the sentence, cause the fine to be recovered as if he himself had imposed it. And, in addition, the Commanding Officer can dismiss the delinquent from the corps, which fact is being recorded and reported to the local Government."

In 1880-81, 413 members were put through the musketry course, out of a total strength of 429. The figure of merit was 107·27; and 81 per cent. classed as "extra efficients." The percentage of *non-efficients* for the season was only 3·87.

The Agra Corps offers a marksman's prize of Rs. 10 from the funds of the corps for every score of 70 points and upwards in the annual course of target practice. The same corps has a good rule for encouraging attendance at parades, namely, that one of the competitions at the annual rifle meeting for a prize of Rs. 100, is open to members who since the last preceding inspection have attended not less than thirty drills, including twelve Commanding-officer's parades. Members of the corps are also asked to take especial pains to perfect themselves in the manual, firing, and bayonet exercises, and to insure the correct and smart performance of these exercises on parade they are advised to go through the movements frequently at home—a very good substitute for dumb-bell or club exercise before the matutinal tub.

Another point to which particular attention is directed is that the application must be required from the Sergeant Instructor, and from the member concerned, in every case in which it may be ascertained that a Volunteer has been more than a fortnight without any necessary article of uniform." We are sorry to hear that the opening parade of the Bombay Volunteers for season, on Saturday next, is likely to suffer in point of attendance because some of the men have neglected to provide themselves with uniform.

A good feature is the establishment of shooting clubs. "In E (Jeypore) and in D (Bandikui) companies shooting clubs have been organized The former was established in May, 1879. It numbered 13 members on the 31st March, 1881. The subscriptions for the year amounted to Rs. 299, of which Rs. 213 were given away in prizes, leaving a credit balance of Rs. 86 on the 1st April, 1881. The Bandikui Club was started in October, 1880. On the 31st March, 1881, there were 32 members. The subscriptions, &c., for the half year amounted to Rs. 372-3-3, and there had been given away in prizes Rs. 287-3-0 leaving a credit balance of Rs. 85-0-3 on the 1st April, 1881. These clubs have undoubtedly much improved the shooting of the men."

FORBIDDEN TO MARRY.

AT the High Court on Wednesday afternoon, after the disposal of the insolvency business, Mr. Telang, instructed by Mr. Macfarlane, presented Mr. Justice West a plaint on behalf of Kessowjee Ooka against Bai Jumna and others.

The circumstances under which the suit was instituted are peculiar. In July, 1878, Jugjeevun Dhurumsey, a Soruthia Bania, died in Bombay, leaving behind him two infant daughters named respectively Bai Killi, since deceased, and Bai Amrut, and Motivahoo, the widow of a predeceased brother. Before his death Jugjeevun entrusted the care of his daughters to Motivahoo, who used to reside with him in the same house. In April, 1880, Bai Amrut was betrothed by Bai Motivahoo, her guardian, to the plaintiff, who, in accordance with the custom of the caste, deposited with Hurgovun Jumnadas, a well-to-do member of the caste, a sum of Rs. 1,000 as a dowry for Bai Amrut. The defendants were perfectly aware of this betrothal, but the first defendant, the aunt of the girl, in concert with the other defendants, Jaichund Amerchund, Jadowjee Amerchund, and Gopaljee Jeewa, had made incessant clandestine attempts to solemnize a marriage between the girl and the defendant Anundjee Morarjee yesterday (Thursday). The girl's guardian did not approve of the proposed marriage, and was desirous of abiding by the betrothal made by her with the plaintiff. The defendants Jaichund Amerchund and Jadowjee Amerchund were not in any way related to the girl or her deceased father, and were excommunicated from the caste. They had forcibly or by stratagem removed the girl from the house of one Javerbai, to whom she was entrusted by her guardian to be taken care of and maintained at the expense and under the supervision of the guardian. The defendants Gopaljee Jeewa and Anundjee Morarjee are not residents of British India, but came to Bombay a few days ago in search of a wife for the latter. The plaint prayed that it may be declared that Motivahoo, the guardian, had the exclusive right to betroth and give in marriage Bai Amrut, and that the defendant Bai Jumna, the girl's aunt, had no such right; that it may be declared that Bai Amrut had been validly betrothed to the plaintiff; and that the defendant Anundjee Morarjee may be restrained by an injunction of the court from accepting Bai Amrut in betrothal or marriage, &c.

His Lordship accepted the plaint as a long cause, and granted a rule *nisi* and interim injunction restraining Anundjee Morarjee from accepting Bai Amrut in betrothal or marriage, and restraining the other defendants from betrothing or giving her in marriage, or in any wise assisting in the betrothal or marriage.

EXTORTION BY RAILWAY POLICE.

AT the instance of the Chief Constable of the G. I. P. Railway Police Gunnoo Wittoo, police constable, and Shaikh Alli Ibrahim, havildar of the Railway Police, were on Wednesday charged before Mr. P. Ryan with extorting Rs. 40 from one Babujee Gungajee, a pointsman in the service of the G. I. P. Railway Company, on the 5th ultimo. The prisoners arrested Babujee on a charge of stealing some oil belonging to the company. It appeared from the man's evidence that they arrested him on the 5th ultimo near the Elphinstone overbridge, while he was returning home from his duties. He had some oil in a brass lota, and instead of reporting the circumstance to their superior officers, the accused extorted from him Rs. 40 before releasing him. This money Babujee raised by pledging with a Marwaree a gold necklace belonging to his wife. Babujee's evidence was corroborated by Cushaba Sela, who relieved the witness on the morning of the 5th, and was present when the money was paid to the prisoners. The further hearing of the case was postponed to the 10th instant.

LABOURERS POISONED IN A DRAIN.

TWO labourers named Babajee Rama, aged twenty-seven years, and Rama Krishna, went into a drain in the Frere-road on Wednesday afternoon last for the purpose of opening the drain at every 100 feet, to help the municipal labourers in cleaning it out more rapidly. Two other labourers were stationed at the opening where the two men went down, to keep up communication with them. Their replies to questions having suddenly ceased, a third man was sent down the drain, and after about ten minutes nothing could be heard from him also. A fourth man was sent into the drain, but he finding the gas arising from the drain unbearable, immediately returned. The road over the drain was then broken, but nearly an hour elapsed before the drain was reached and a labourer sent in. This man found two of the bodies, and after some difficulty the body of the third man was also found. The three bodies were then conveyed to the Goculdas Tejpal Hospital, and afterwards to the Morgue at Cammateepoora. The cleansing of the drain was being conducted under the supervision of a Sub-Health Inspector of the Municipality The stench arising from the drain about that neighbourhood is described as being fearful.

Yesterday an inquest was held by the Coroner, Dr. Blaney, at the Morgue on the bodies of the three deceased named Babajee Rama, Rama Krishna, and Dadoo Waynak. The bodies were identified, and the evidence of two of the municipal labourers, named Mahadoo Wittoo and Callia Bicnac, who were connected with the work of cleaning the drain, was taken: after which the inquest was adjourned for further inquiry to the 7th instant.

RINGWORM.—For the last twelve months I had been suffering from Ringworm about my neck, which did not yield to any of the various remedies I used. Having got a box of "HENRY'S THILUM" from you, I made no hesitation in trying it. Six or seven applications of the ointment in two days completely cured me of the disease. I am much delighted to communicate to you this result of my trial of your "THILUM" with a view to your recommending it as a SPECIFIC FOR RINGWORM.

THE STANDARD LIFE ASSURANCE COMPANY.
ESTABLISHED 1825.

THE attention of intending Assurers is directed to the following points of this old established office :—

FUNDS.—These now considerably exceed FIVE-AND-A-HALF MILLION STERLING, and are larger than those of any British Office transacting business in India. Detailed statements showing the nature of the Investment are published annually.

ANNUAL REVENUE.—This has now reached EIGHT HUNDRED THOUSAND POUNDS.

CLAIMS.—The amount paid annually to the representatives of deceased Policy-holders is upwards of HALF-A-MILLION STERLING.

NEW BUSINESS.—Since 1865 the yearly New Assurances of the Company have exceeded ONE MILLION STERLING,—a result maintained by no other British Office for so many years in succession.

RATES.—These have lately been considerably reduced at most ages and will be found moderate. Lower rates are not justified by the Company's own experience,—now of considerable extent—nor by the most recent investigation into the mortality of European lives in India.

FACILITIES FOR ASSURANCE.—The Local Boards are empowered to issue Policies and pay claims without reference to Head office, and arrangements can be made for Medical Examinations in any part of India.

Forms of proposals, &c., and every information may be obtained on application.

SULPHOLINE LOTION.—An External Means of CURING SKIN DISEASES. There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic ; while, for the more obstinate skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which causes these unsightly, irritable, painful affections, and always produces a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. 1 ottles, 2s. 9d. Made by J. PEPPER and Co.,
